M A T A T E C

Energetic Mechanical Engineering , energetic Environmental – plus Medical Technologies

Dear Ladies , dear Gentlemen and Friends

Here some

E n e r g e t i c E x p l a n a t i o n s

♈

As just told shortly above , – from **VAASTHU – SHASTRA** , – a

B R A H M A – S T H A A N A M

– is the energetic centre of every (- *as of every from us as human beings (- also on sub-conscious levels) anyhow bodily or formal individual separate defined and recognized aspect of* **Thee ABSOLUTE** , - *so also of any body* -) area , building , plot , flat or residence ,

but also of villages , towns , defined social – cultural group's areas , nations and states ; – now like here , also of this (- *also with the surrounding fence , - plus being in charge owners around , - plus a special defined usage , - so also highly defined*) school – area in Mudigubba .

But not only this ; – also in all of these above , as in every defined area house or region , – there is living or staying inside a on subtle levels recog-nized soul-identical being ,

– known as **VAASTHU – PURUSHA**

(- **PURA** is synonym for a fortificated – so also highly defined town , - synonym also for a or our own body (- *as an always temple of the being always inside* **ABSO-LUTE**) or of **PRAKRITHI** ; – where the **SHA** **(** - alike **SA** – the with **136.1 Hz** (- *as tone of the middle tropical year in its 32. Octave*) a **Cis** on basis of an **A** with **108 Hz** (- *here the synodic moon tone ; where the 432 Hz A is this original tone in the 2. octave*) ; - being also the anciently known basic keynote of all **RAAGA** , - as the keynote of **Thee " AUM "** , -)

– **so " SA " is Thee " AUM "** (- identical also with **SATHYAM – SA**-I – **SA**-YI , **SA**TVA , **SA**RVA , **SA**NKTUM , **SA**CRAL , **SA**CRA-MENT , **SA**YALAM , **SHA**L**OM** –) – as same as **PARAMATMA – PARABRAHMA – ATMA – BRAHMA** ,

– truly saying **Our All** own highest existence , **Self and ABSOLUTE Him – She – It – Self** .

Are we knowing from **VAASTHU** as remembering from all ancient cultural traditions of the world , – that the main symbol for the earth was always **the** (- inside of the magnetic field of the earth straight North – South West – East positioned) " **square** " as also the " **4** "

(- *here also in* **BHARATHIYA** *traditions with the strong 4 legs of* **NANDHI** , - *symbol of* **DHARMA** ; - *as also alike the* (- *also always straight inside of the magnetic field of the earth located* ; - *but here also horizontally*) *positive points of* **Global – Hartmann – grid-system** *as also towards the positive – points of the* **Benker – Cube – grid-system** , - *where ancient temples where set with their wall-edges wherever possible only to such telluric – energetic points* -) ,

– there was and is also a higher knowledge behind :

Are we as human beings (- *maybe also pets* ; - *because it was found that dogs and cats are sometimes taking some* - (- , *or having sometimes in the same Chakras*) *illnesses of or with their owners* ; -) staying inside of an anyhow clearly defined area or house , – our body as same as **VAASTHU – PURUSHA** ' s body is reacting towards this above **ideal positioned square** , – which should be ideal around of **VAASTHU – PURUSHA** as same as around of our body .

Or in other words :

If **VAASTHU – PURUSHA** is not able to stay inside of a (- *also in the ground-plan rightly positioned*) harmonious square , – his body and Chakras will experience some blockages and therefore – **also our body** (- *if staying inside (- or much more intense , - if we are also the owners) of this area or room*) **will react in the same way !!!**

But its not only the square (- *or the maybe anyhow (- through openings , gables , absent or rounded edges as though a wrong direction etc. etc.) formal disturbed ideal square*) alone ; – also **VAASTHU – PURUSHA** is laying or better sitting straight in the meditation ; – with **His** head (- *because of the together a little bit right side spinning-function of Solar* **VIBGYOR** – *powers from the East side arising sun , - together with the earth magnetic powers from the North ; - where also equivalent to the different seasonal sun-light - directions , - also the sitting - direction of* **VAASTHU – PURUSHA** *is are little bit changing too ; -*) North-East – **ISHVARA** (- the supreme Lord's aspect's) – side and with **His** feet South-West side ,

– and wherever there is a (- *physical , emotional as spiritual* -) disturbance **also on subtle levels** , – but also with geopathic – or electro – stresses ,

(– but here also included of all the various goals and ideals of **VASATHI** ; **the list of possibilities is very long here** (- ***if You're interested more deeply, - see please also inside of the qualified*** **VAAS-THU -** ***literature***) ;

– but also in regions of less or no **Women's – and Children's Rights** or also with less environmental – ecologic awareness ; - or with much of corruption , criminality or fighting and war etc. ; -)

– **the** (- *same as in our human body function*) **Chakras and health of VAASTHU – PURUSHA will react and proceed accordingly !!!**

♈

But (- *here pasting a special but very important article inside , -* till **side 10**) there is another here highly interesting **and for all healing – processes** (- *beside of the environment , – also for us human beings*) **most important detail** ;

– found and (- *in the real meaning of this next word*) discovered again through the here also highly important researches of

Mr. Dr. Mannem Murthy

from

Dr. Murthy's VEDIC AURA ENERGY RESEARCH CENTRE

(- in Hyderabad) :

Is it said in the **KARMA PURANA** (- at chapter 43)

" **T**hat among all these omnipresent rays that compose **His Godly body** and illumine the limitless worlds , – **there are seven** (- the **V I B G Y O R** – *coloured light-rays*) **the highest and best** ,

– **because they are forming the matrices of " the seven planets "** " ! ! !

So the seven **V I B G Y O R** – colours **(** - *being identical also with the seven horses in front of the chariot of* **SURYA – MANU DEVA Thee Sun God** as the rays of the **Sun – principle –** identical **ADVAITAM** *; - here also equivalent to the values and goals of* **Thee (- at best at the most important daily Sun – times : - At sunrise , noon and dawn prayed , -) GAAYATRI – MANTRAM** *and the Sun principle of* **SVAHA –** *and a* **SATVIC** *livelihood ; -***)**

out of ancient **VEDIC** knowledge , – they are forming beside of **the seven planets**

(- here equal to the here important **NAVAGRAHAS - here coloured equivalent to the Chakras : - Thee Sun** , the **Moon** , **Mars** , **Mercury** and **Jupiter** (- *these both for the heart* **– ANAHATA – CHAKRA** *in front of and backside of the body*), **Venus** and **Saturn** , - **)**

– also the here equivalent **KUNDALINI – Chakras ! ! !**

Are We knowing also from the **B i b l e** that the **V I B G Y O R** – **seven coloured rainbow** (- *but here also very important and nice , - in deepest relationship with water ;* -) is a covenant between God and the Earth ,

- in European Celtic sagas we know also the story that where the rainbow ends or starts on earth , there is a subsoil golden pot or a pot of gold hidden or dug inside .

Also here , there is a most important additional higher truth behind these tales :

When these seven (- *just excuse :* **360^0 / 7 = 51,42857..^{0}** - *also around the same main-angle like of great Cheop's pyramid in Egypt ;* -) **V I B G Y O R** – (- *not only colours - but better* -) **rays of light** are coming together (- *here also in the symbol of the raised* **KUNDALINI** *as lived* **SATVIC** values and enlightenment) ,

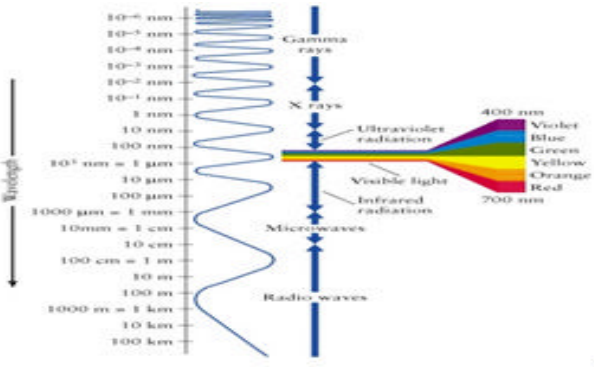
- here highly interesting as same as with **AGNI – HOTRA** and **YAJNA** ,

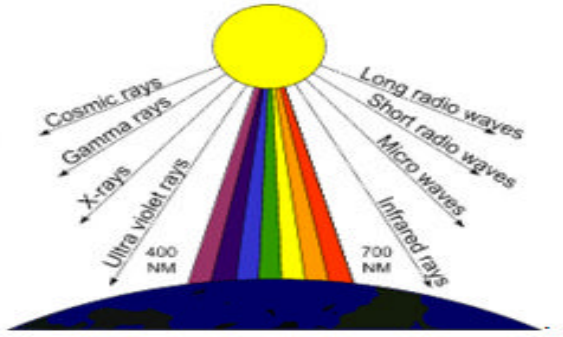
– **Golden Frequency** – a highly special also anti-bacteriologic healing – energy is manifested ;

- on earth as an circular subtle energy – pillar (- *from a few centimetres till about dozens of metres*) , – most important as also highly valuable for the energetic wellbeing of the earth with all its beings

(- **see here please also inside the future books and basic scripts out of my M A T A T E C – researches**) **! ! !**

But now beside of these **V I B G Y O R** – energies (- having a wavelength of about **400 – till 700 nm** as being called also together with the octave – related heard tones , - the **" Biologic Window"**) called together with all the other constructive-healthy energies , – the **DEVATAS** or **SAKAR–ATMA–KA** ,





– We are having the also for humans till to the most of the other living beings in nature harmful radiations

A) either bigger than **700 nm** , – the **infrared** and longer , – in the **VEDIC** context called and known as (- *maybe problems towards the body bringing*) **KETU**

B) or lower than **400 nm** , – the **ultraviolet** and shorter , – in the **VEDIC** context known and called (- *as maybe mental problems bringing*) **RAHU** ;

– both known also as serpents , – as also the everyday either downwards or upwards rising moon – node (- and if both **RAHU –** plus **KETU** – energies are working in combination on a person , – in ancient India it was called (not so nice) **SHANI –** or **NAGA – DOSHA**) ; -

so **the ultraviolet rays , the gamma rays , micro waves and radio waves etc.** ; – where all the destructive energies where called **Nakar–Atma–Ka** or **RAKSHASAS** – **the demons** **! ! !**

So heaving now (- *at the on nowadays scientific levels*) full context of the clear **VEDIC** – as also nowadays names of different rays and radiations , – most of all illnesses (- *as also of geopathic – and electro – stresses etc.* ; - *we are reminding here ones more also the maybe impacts towards or against* **VAASTHU – PURUSHA** ; -) are mainly basing on the effects functions and impacts of different (- *also karmic caused*) destructive radiations and energies **!!!**

Are we now able to detect most of these (- *either very newly , or old ones , till karmic brought with us* -) energies through **Dr. Mannem Murthy's** UT – scanner , –

difficult or destructive energies

should never be inside or around of the **AURA** ;

– and if they are just there , – they should (- *without of shifting the problem just to another side*) ,

– <u>as most important basis or every true healing</u> , –

– (- as till now in India , - with several more earthly procedures of the use of **NAVA-RATNAS** as **NAVADHANYAS** , herbs , minerals and gemstones etc. , - here always with several difficulties as longer – term problems as of afterwards energetic special-wastes ,) **just be taken away ,**

– <u>or better</u> (- like now with the newly discovered , - only possible – with **M A T A T E C – " AUM " – Whirl – Technologies** in a few minutes of treatment , -) **<u>just vanishing</u> !!!**

♈

Having treated just many people , patients and (- *included of some on subtle levels highly long – years experienced as highly skilled*) healers like this , – the at once results where always very – , sometimes also highly astonishing – till nearly unbelievable outcomes

and also **Mr. Dr. Mannem Murthy** has happily experienced as recognized the exceptional value and importance of this new

– out of my own researches , – in essence on the subtle functions of **Thee " AUM "** and **"AUM " – Whirl – Structures** basing (- being high beyond of PRANA – therapeutic)

energetic healing – method ! ! !

♈

But now let us come back to the (- above **till side 4** primed) **VAASTHU** – theme , – here further on , once more with the (- *most important to know*) energetic effects of the square :

Additional to everything just told above , – inside of an **ideal square** there are also the harmoniously proportioned **PANCHA – BHUTAS** the fife never changeable so holy elements

- **AKASHA** space **ABSOLUTE**
- **VAYU** air **Children Communication Business**
- **AGNI** fire **Women's power**
- **UDAKA JALA** water **Spiritual power**
- **PRITHVI** earth element **Energy of the Owner and of Males**

– (- *being esteemed also architectural inside of the square accordingly though not disturbing them or helping them to identify themselves at best as much as possible ; -*) standing not only for several body-functions , – but also for several live effecting , – or better our lives (- *here also our relations families employments as prosperity*) helping and supporting functions .

But together with the additional effects and functions of special proportions and measurement-units (- the " **YONI – system** ") the thing could get more and more difficult and (- *without of deeper knowledge*) confusingly .

Therefore in short , – if **VAASTHU – PURUSHA** ' s is staying inside of an anyhow (- *as a seem to be on worldly levels separated part of consciousness*) defined body , area , case , a house etc. and **He** is effected or impacted anyhow not so nicely , – equivalent to the maybe blockages of **His Chakras** , – **these are also the points and bodily areas , – where our human body is getting effected or ill at first** **!!! !!! !!! !!!**

So knowing from knowledge – that We're not the body , it's not helping us here , – because the body (- *as also* **VAASTHU – PURU-SHA** with **His** always pure *Godly body is also responding* **;** - before the impacting subtle energy is not transformed rightly , -) **will ever react** ;

– and I (- *being told about these (- also through nowadays resear-ches proven as being true) facts , - especially from an highly esteemed as awarded former nuclear Indian scientist from Hyderabad , -*) was (- *from nowadays normal point of view*) very shocked hearing about these connections and also medical context , – not believing at once , – that (- *out of newly Indian researches , -*) nearly 99,9 % of human illnesses (- *ok , if someone has an accident , - it could be different ; -*) are also related as connected with the circumstances of the inherent **VAAS-THU – PURUSHA** , – and wherever there is an illness , we have (- *especially as healers as same as towards the body mind and soul or towards the Chakras of the patient*) , – also to look for the living – circumstances – as to treat and heal also his residence and living-area .

But after coming home to Germany last time , now about 2 years back , – I was looking to all people I had the possibility to , – with much of highly astonishing experiences ;

– **and also here Mr. Dr. Mannem Murthy's insights and researched have been proved as being exactly the truth ! ! !**

♈

So now , – (- *as just told shortly above* , -) having researched also myself about 25 years on how will be and is the best way of transforming not so nice subtle energies , – I've discovered that nature is transforming as powering up subtle healing – energies through

" A U M "

– where **Thee " AUM "** is not only a highly defined sound , – but also a highly special flow-scientific vortex – or whirl-structure (- from my side so called **" AUM " –** or **" Transformative " – whirl structure**) .

Additional I've discovered and found

(- beside of many very deep insights and ways of highly interesting medical environmental agri-cultural , mechanical – as river – engineering etc. possibilities technologies an ; - Ps.: **If You will be interested more , - please see inside of the future books and in the basic information of M A T A T E C – " A U M " – Healing – Technologies)**

– that with the **" AUM " – identical** so also **pure satvic ethic – social – ecological** use of these highly special vortex – structures ,

– We're able (- *not only to protect ourselves from difficult energies for some time as just known also in advanced Indian sciences ; - but now*) to transform not so nice subtle energies towards totally disappearance and vanishing ,

– and matter will afterwards ray – **in the full range of** (- *what's highly important , - also for all beings , humans , animals , plants , for minerals as for every form of highest consciousness , - here also individually - fully harmonious*)

Healing – Frequencies ! ! !

But not only this :

With the newly (- over the few years back) developed

M A T A T E C – Transformation – Aggregate

– it's possible now to transform subtle energies in big ranges of (- *after one year of testing , with only one unit in a circle of*) about 180 km radius ; – where also the subtle polarity-axes of matter are calming down and whole nature is getting remembered her fully Soul – identical inner Godliness **! ! !**

♈

So coming now back towards the medical – as **VAASTHU –** themes and benefits , – where we've found , that using

M A T A T E C – Technologies

is also highest effective on **Energy – VAASTHU** – processes **! ! !**

Is it clear , – that all these above (- at **side 2 – 6** shortly) counted up **VAASTHU** – difficult geographical architectural etc. circumstances of houses buildings flats and plots landscapes towns etc. , – cannot always solved (- *with maybe lots of have to be changes*) physically only ;

– so **Energy – VAASTHU** is an (- *normally most difficult and sometimes also highly costly as material – intensive*) energetic healing – treatment – procedure , to solve (- *some of all* -) these problems on energetic levels –

mainly through an so called at first –

a) Telluric Transformation (- *this means to protect the area mainly from geopathic stress – areas*) ,

plus the (- *at best afterwards proceeded*)

b) Cosmic Transformation !!!

The **Cosmic Transformation** of an area is same like the **Telluric Transformation** (- *nevertheless in Europe and western societies , - most of the people don't know anything like this in modern worldly circumstances anymore ; -*) also highest important **!!!**

Only through the **Cosmic Transformation** plus **MANTRAS** and **VEDIC** inauguration – ceremony , – with maybe sometimes additional **YAJNA** or **AGNI HOTRA** , – we're able to ask **Thee ABSOLUTE** to manifest **Him – She – Itself** as a fully harmonious God – as temple – identical energy – quality ,

– where the surged for area or room is treated with the help of the (- *over thousands of years from the* **Rishis** *given , - offered as passed to us -*) **VAASTHU – YANTRAS** ,

– being truly saying – All godly aspects of Ourselves **! ! !**

♈

May some of our Indian friends now know and remember , that the **VAASTHU – YANTRAS** are also connected to the magneto-geographic earth-directions ;

– but to use them by just installing them to the seem to be right direction only , **– <u>is a great mistake and deep misunderstanding</u> :**

The **VAASTHU – YANTRAS** **<u>have to find their right home-alike places alone</u>** ; – and if it's not the right point and position (- *here inside of maybe* ***<u>sometimes only half of a millimetre</u>*** *up or down , as right-side or left-side , sometimes also with some turn ; - and also not always on comfortable to fix eye – levels ;* -) also this " Godly " **YANTRAM** (- *or also if it is a here not needed one , - because this individualised Godly energy is on subtle levels just (- anyhow) manifested ; - it* -) could be (- *too much , - or*) an additional disturbance towards **VAASTHU – PURUSHA** and is therefore sometimes more as contra-indicated **!!!**

Am I working with special apparatuses here also with **Dr. Mannem Murthy's** UT – scanner , – where it's possible to measure and to qualify subtle energies , – plus letting the **VAASTHU – YANTRAS** find their own places easily ,

– at the **Mudigubba School** , – before of starting now to build up and manifest the energetic centre of the area plus **VAASTHU – PURUSHA** ' s **MANIPURA – Solar Plexus – Navel – Chakra** (- also known as **GHARBHAM** or **NABHISTAN** ; -) as also the centre of **AKASHA – energy** plus the additional centre of also the other (- inside of an ideal square all harmoniously quantified) **PANCHA – BHUTA** – elements ,

– I was testing before the energetic circumstances and statuses of the whole – farer as nearer – **region :**

♈

M A T A T E C – Energetic Tests

(- in front of asking for manifesting the **BRAHMASTHAANAM** inside of the **Shanti Ananda Nature Concept School** of Mudigubba) :

Here out the original notes :

A) Thursday the 30.01.2014 , on the way from **Puttaparthy to Mudigubba (-** ***behind Chitravathi – bridge left side and about 45 km in north-east direction*** **)**

Shortly behind of Puttaparthy , the subtle energy was deeply down (- more than in the cellar) ; - in midst of the over some kilometres dragging on **Mango** – forests in front of the northern mountains , – the subtle energy feels to bee much more agreeable (- out of too less of time , - it was not possible here to perform a right measurement with technical apparatuses ; - the momentary subtle energetic quality of the whole landscape is mostly similar) .

Ps. : The next tests and measurements till **Test G** **at side 27** , – where all proceeded **on Thursday the 30.01.2014 !!!**

B) **Then again on the plateau behind of the mountains** (- just behind of a small village with a Mobile phone – transmitter tower on the left side towards the west) :

- **M A T A T E C – Energy – Feeling Method** = extremely down
- **M A T A T E C – "OM" – Harmony** = extremely disharmonic
- **Körbler** – Status = 5 – 6 a strong not nice bodily feeling , - of an extremely . blocked up subtle energy
- **Bovis** – Units = around 2350 (- inside of a status of severe illness)
- **VAASTHU** – relevant Energies :

  Solar Power = zero absent

  MA – OM Shakthi – Power = zero absent

  SHIVA – Power = zero absent

- **Negative energies :** UV , IR , D – Energy , GS - Geopathic stress energy , - are all violently here .
- **A** measurement with a special dowsing-rod , – for what is the actual subtle quality of a **Thread of Water ???**

  Actually only very difficult till dangerous subtle energies and frequencies are there , – also impacting the whole landscape as agriculture .
- **A**nother measurement with the same above dowsing-rod , – for what is the positive Healing – energy's **AURA** – width of a small (- *always about 1 cm diameter great*) stone **???**

  Here there where no healing – powers at all !!!

C) Just in front of the **SHANTI ANANDA** school – area (- on the fields opposite of the entrance right side of the small street) :

- **M A T A T E C – Energy – Feeling Method** = a very strange reaction of the hand , strongly down
- **M A T A T E C – "OM" – Harmony** = extremely disharmonic
- **Körbler** – Status = 5
- **Bovis** – Units = around 1850 (- inside of very severe illness)
- **VAASTHU** – relevant Energies :

  Solar Power = zero absent

  MA – OM Shakthi – Power = zero absent

  SHIVA – Power = zero absent

- **Negative energies :** UV , IR , D – Energy , GS - Geopathic stress energy , - are all violently here .
- **A** measurement with a special dowsing-rod , – for what is the actual subtle quality of a **Thread of Water ???**

  Actually only very difficult till dangerous subtle energies and frequencies are there , – also impacting the whole landscape as agriculture .
- **The** other measurement with the same above dowsing-rod , – for what is the positive Healing – energy's **AURA** – width of a small (*- always about 1 cm diameter great*) stone **???**

  Here there where also no healing – powers at all !!!

Now inside of the SHANTI ANANDA NATURE CONCEPT SCHOOL – area in Mudigubba :

D 1) In front of the guesthouse beside of the Lotus – pond

- **M A T A T E C – Energy – Feeling Method** = an odd reaction of the hand (at dual positive ???) but going down towards 2. Chakra
- **M A T A T E C – "OM" – Harmony** = at about 15^0 just disharmonic
- **Körbler** – Status = 5 just in front of coming towards the positive side
- **Bovis** – Units = 6000 (- much better than above , but also at the illness side)
- **VAASTHU** – relevant Energies :

  Solar Power = zero absent

  MA – OM Shakthi – Power = zero absent

  SHIVA – Power = zero absent

- **Negative energies :** UV , IR , D – Energy , GS - Geopathic stress energy , - are all violently here .
- **A** measurement with a special dowsing-rod , – for what is the actual subtle quality of a **Thread of Water ???**

  Actually to my big surprise just the coming up 2. and 3. healing frequency , no Golden frequency (- but also just being there the difficult till dangerous frequencies) .

  Therefore the good social work of these people , – shows just some hopeful environmental reaction !!!

D 2) Beside of the northern schoolhouses , north and outside of the North American First Nations Indians Medicine – Wheel

- **M A T A T E C – Energy – Feeling Method** = an odd reaction of the hand (at dual positive ???) but going down towards 2. Chakra
- **M A T A T E C – "OM" – Harmony** = at about 15 – 20 ^{0} disharmonic
- **Körbler** – Status = 5 just in front of coming towards the positive side
- **Bovis** – Units = 5800 (- less than above , also at the illness side)
- **VAASTHU** – relevant Energies :

  Solar Power = zero absent

  MA – OM Shakthi – Power = zero absent

  SHIVA – Power = zero absent

- **Negative energies :** UV , IR , D – Energy , Geopathic stress energies , - are just all here .
- **A** measurement with a special dowsing-rod , – for what is the actual subtle quality of a **Thread of Water ???**

  Actually to my big surprise just the coming up 1. , 2. , 3. , 4. u. 5. healing frequency , just no Golden-frequency (- but also just being there the other difficult till dangerous frequencies **)** .

  Therefore the energetic quality of the school-area is not at every place same !!!

D 3) In front and north side of the new administration-building

- **M A T A T E C – Energy – Feeling Method** = just an odd reaction of the hand (at dual positive ???) but also going down towards 2. Chakra
- **M A T A T E C – "OM" – Harmony** = at about 15 ^{0} disharmonic
- **Körbler** – Status = 5 just in front of coming towards the positive side
- **Bovis** – Units = 5800 (- just at the illness side)
- **VAASTHU** – relevant Energies :

  Solar Power = zero absent

  MA – OM Shakthi – Power = zero absent

  SHIVA – Power = zero absent

- **Negative energies :** UV , IR , D – Energy , Geopathic stress energies , - are just all here .
- **A** measurement with a special dowsing-rod , – for what is the actual subtle quality of a **Thread of Water ???**

  Actually to my big surprise just the coming up 1. , 2. , 3. , 4. healing frequency , just no Golden frequency (- but also just being there the other difficult till dangerous frequencies **)** .
- **A** measurement with the **L – rod** (- *here also inside and outside of the Construction Office etc.*) shows that computers electrical wires several machines and batteries are just showing an negative disturbing energy-field **???**

E) Thursday the 30.01.2014 VAASTHU – Measurements

For searching the here now highly essential right position of the **BRAHMASTHAANAM** (- here for all of us highly pleasingly , - the right point was found just very optimal , - close to the main central playing ground , - north of the way towards the guesthouse and opposite of the new water – reservoir and administration – building , - just on top of a rock and just beside these rocks , where the first school – area's inauguration ceremony was performed 2010 with **AGNI HOTRA** (- see the pictures)) , – I was looking and measuring with an special instrument the **UT – Scanner** from north-east (*spiritual*) side of the school area , – where the over the **VAASTHU – BRAHMASTHAANAM YANTRAM** noticeable **ABSOLUTE** here likes to be and to be fully manifested **???**

With the first steps of teachers to this ground 2010

- we where starting with **AGNI HOTRA**

F) Thursday the 30.01.2014 VAASTHU – Cosmic Transformation

Testing of what kind of the over 12 **VAASTHU – YANTRAS** would be important as in highest need to transform the school-area on cosmic levels ;

– but here especially in the momentary just not so nice subtle energy status ; – and also in front of – or (- *for now*) without of the use of my additional possible highest advanced **M A T A T E C – techno-logical** procedures and blessings **???**

Here , as it was measured with my special apparatus , – that equivalent to the energetic situation of the school area ,

– for the so called **Cosmic Transformation** ,

– **just all VAASTHU – YANTRAS should and have to be probably used** (- ***without of a single exception***) **!!!**

♈

Now starting with the **BRAHMASTHAANAM** , – by testing the founded point deeper and more profoundly , – when the (- *also separately blessed before as also printed as worked up with an also in front of transformed printer etc. ; - the -*)

VAASTHU – BRAHMASTHAANAM – YANTRAM

(- *with some additional features and functions out of* **M A T A T E C – Technologies**)

was positioned at the right place first time , – at once there was coming a (- *not only from myself clearly seen*) **light blue ray of light** just at this point out of the rock **! ! !**

Here the future **BRAHMASTHAANAM – centre** is directly at the white signed top of this rock , - where the mason-trowel is directing to the small laying upon stone (- here with **Krishna** – the mason) .

But the needed **YANTRAM** had to be adjusted very clearly ,

– here within less of a half millimetre with exact the right turn also towards east side , – that the really not and never at all ideal square-alike (- about 5 acres big) school-area ,

– could now be energetically turned (- as squared) through this procedure to its right energetic position **!!!**

♈

After this above treatment and procedure , – at first made only for testing (- *also because we didn't know before and had to think about , - how to fix the* **YANTRAM** *as to proceed here in the best way*) ,

– the subtle energy-quality at once was rising strongly , and it was a good as hopeful sign to work on accordingly as good as anyhow possible **! ! !**

G) Several tests and measurement at the whole school – area **also on Thursday the 30.01.2014**

– **M A T A T E C – Energy – Feeling Method** = **the energy is going higher**

– **M A T A T E C – "OM" – Harmony** = **is slowly coming**

– **Körbler** – Status = here not measured

– **Bovis** – Units = here not measured

– **VAASTHU** – relevant energies :

Solar Power = **power is coming**

MA – OM Shakthi – Power = **power is coming**

SHIVA – Power = **power is coming**

– **Negative energies :** – most of them have just gone

– **A** measurement with a special dowsing-rod , – for what is the actual subtle quality of a **Thread of Water ???**

Now also **Golden-Frequency** is coming **!!!**

– **Then the** measurement with the same above dowsing-rod , – for what is the positive Healing – energy **AURA** – width of a small (- *always about 1 cm diameter great*) stone **???**

Here it where now about 9 meters radius of some healing – powers !!!

♈

Then the next days , – we where building up the foundation of the future

BRAHMASTHAANAM

– and after fixing the also blessed **YANTRAS** inside of two glass – plates on top **,**

– together with the schoolchildren we where celebrating (- *as just told above ; - here I was hoping , - that the full Godly powers will come and spread now and before the whole con-struction was finished , - also because for minimum some days , - I had to leave some days behind to the North ; - therefore it was very good with proceeding*) at first a **VEDIC inauguration ceremony** with **GAAYATRI – MANTRAM ,** – plus the additional use as blessings through

M A T A T E C – " AUM " – Whirl – Technologies

– as also with **AARATHI** and **PRASAADAM** for the children **! ! !**

During the **PUJA** I'd recognized ,

– that the full spiritual powers

just have come ! ! !

♈

So after this **PUJA at Thursday the 6.02.2014** , – also to have a scientific prove , I measured the whole energetic situation ones more .

Here the results :

H) Several tests and measurement within the whole school – area (- at all places and testing-points **the resulting energy-quality was always same**)

- **M A T A T E C – Energy – Feeling Method** = **+++ ! ! !** highest energy
- **M A T A T E C – "OM" – Harmony** = **+++ ! ! !** is manifested
- **Körbler** – Status = **9 Highest Energy ! ! !**
- **Bovis** – Units = no more to check , – no reaction of the pendulum anymore (- as I know nowadays , – **"AUM" – energies are supramental and higher level** .) .
- **VAASTHU** – relevant energies :

  Solar Power = **full powers ! ! !**

  MA – OM Shakthi – Power = **full powers ! ! !**

  SHIVA – Power = **full powers ! ! !**

- **Negative energies :** **All have totally gone ! ! !**
- **A** measurement with a special dowsing-rod , – for what is the actual subtle quality of a **Thread of Water ???**

  Full healing – powers in all waters ! ! ! –

- **A**lso the measurement with the **L – rod** (- *here also inside and outside of the Construction Office etc.*) shows , - that all computers electrical wires several machines batteries mobile phones etc.

  – **have now all lost their before negative disturbing energy-fields** **! ! !**

- **But also** , – there are no subtle **polarity – axes** of any matter around anymore ;

  – **the whole nature around has " A U M " – identically calmed down** **! ! !**

- **A**fterwards (- *equal to the measurements* **F** from above **side 18** ; -) I was also ones more testing , – what kind of **VAATHU – YAN-TRAM** would now additionally

  – but here now especially after the special blessings with **M A T A T E C – " AUM "– Healing – Technologies** (- **because without of them** (- *I've just got known through many own ex-periences*) , - **nothing would change on these levels** ; - **)**

  just be important to use as well **???**

  But also here the situation has also totally changed **!!!**

- **N**o single **VAASTHU – YANTRAM** has to be used for additional **Cosmic Transformation** anymore ;

  – **so all the Godly aspects are fully present** **! ! !**

♈

I) **S**o but also to know what's going on also outside of the school – area (- **also at Thursday the 6.02.2014**) ,

– I thought of , that it will be good also to test just the same field (- *opposite the main gate*) where I was measuring the subtle energy-quality just some days (- above at **Side 19 – C**) before :

Now these results :

– **M A T A T E C – Energy – Feeling Method** = the energy is coming

– **M A T A T E C – "OM" – Harmony** = the energy is getting much more better

– **VAASTHU** – relevant energies :

Solar Power = full power ! ! !

MA – OM Shakthi – Power = full power ! ! !

SHIVA – Power = full power ! ! !

– **Negative energies :** Have also totally vanished ! ! !

– **A** measurement with a special dowsing-rod , – for what is the actual subtle quality of a **Thread of Water ???**

Full healing – powers in all waters ! ! ! –

– **But** also here there are no subtle **polarity – axes** of any matter around anymore ;

– the whole nature around has " **A U M** " – identically calmed down ! ! !

♈

The next time driving to the **SHANTI ANANDA SCHOOL** by taxi some days later , – I've recognized , – that the highly positive energy – status of our **BRAHMASTHAANAM** (- here also recognized with the **"AUM" – identical –** till now only inside of some temples , - as just in the nearest front of some **Holy Idols** , - if **Thee ABSOLUTE** likes it , - as through **M A T A T E C – Technologies** known as experienced , - calming down of subtle polarity – axes) just have come in the radius till about **15 km** around (- *and in front of*) **Mudigubba** **!!!**

♈

Then sitting in the **SAI KULVANT HALL** for **Dharshan** the day before **MAHASHIVARATHRI** , – I recognised that this highly special energy had now also arrived **Puttaparthy** **(** - once more **:** About **45 km** south-west of **Mudigubba** **)** **!!!**

So coming home (- *to my Indian flat* , -) I was taking out my measurement – instruments and really – the powers where starting (- *may be needing a few days towards full powers*) to work and to proceed also here **!!!**

♈

Then I was visiting also some friends , who are living a little bit outside of **Puttaparthy** in their own houses ; – and also here

(- *as I just know it from the experiences with my* **M A T A T E C – Transformation – Aggregate** - see above at **Side 8** , -)

– all the also **VAASTHU – relevant** energetic problems have all left ;

– and after some days , – the full healing – powers could be measured

e v e r y w h e r e **!!!**

♈

At the end of my stay in India , I was driving by taxi to **Bangalore Airport** .

Being now also here highly interested about , – how far and towards what distance will all these (- *now newly concentrated-manifested*) highly special **BRAHMASTHAANAM – energies** reach with all **His – Her – Its** environmental as **VAASTHU –** healing effects ,

– I let my measurement – instruments (- till shortly in front of the Airport) outside of my big suitcase , inside of my hand-luggage ,

and at a few spots

(- here especially in the near of mobile – phone transmitters and high voltage lines (- *because "normally" till now , - they where very difficult with* **UV , IR , D – Energy** as with **Electro – Stresses** *; -*) **)**

– I was testing the surroundings **:**

♈

At one place , just driving underneath a high voltage line , – I'd asked the taxi-driver please to stop for some minutes .

Going out of the car , I measured the subtle energy – status ,

– and also here :

J) Several tests and measurements on the way to Bangalore Airport
(- around one hour out of Puttaparthy towards Bangalore direction)
at Saturday the 22.03.2014

- **M A T A T E C – Energy – Feeling Method** = **+++ ! ! !**
  highest energy
- **M A T A T E C – "OM" – Harmony** = **+++ ! ! !**
  is manifested
- **Körbler** – Status = 9 Highest Energy **! ! !**
- **Bovis** – Units = no more to check , – no reaction of the pendulum anymore .
- **VAASTHU** – relevant energies :

  Solar Power = full powers **! ! !**

  MA – OM Shakthi – Power = full powers **! ! !**

  SHIVA – Power = full powers **! ! !**
- **Negative energies :** All have totally gone **! ! !**
- **A** measurement with a special dowsing-rod , – for what is the actual subtle quality of a **Thread of Water ???**

  Full healing – powers **! ! !** –
- **A**lso the measurement with the **L – rod** (- *here also inside and outside of the Construction Office etc.*) shows , – that also these electrical high voltage wires
  - had now no negative disturbing energy-fields on this level anymore **! ! !**

– **The** other measurement with the same above dowsing-rod , – for what is the positive Healing – energy **AURA** – width of a small (- *here also about 1 cm diameter great*) stone **???**

Here it where now about 29 meters of full healing – powers ! ! !

– **But also** here , – there where no subtle **polarity – axes** of any matter around anymore ;

the whole nature around has " A U M "– identically calmed down ! ! !

♈

Visiting afterwards (- *before of flying back to Germany*) a dear friend ; – till to the **Bangalore International Airport (and flying back)**

– **I didn't find that this highest-quality subtle energy – status was anyhow coming down ones more**

– **or better to say** –

the whole surrounding was everywhere powered up with full range and full powers of

" A U M " – Healing – Frequencies ! ! !

♈

Here now (– *to complete the information*)

at **Part 3 till Part 5** some more pictures of the construction :

(- **and a last energetic view , You could find at the end of Part 5**)
